

Triple Cross Aussies - Puppy Warranty and Contract

Breeder and Buyer agree to enter into this contract under the following binding agreement:

Triple Cross Aussies/breeder warranties this puppy free from genetic defects that prevent the puppy from being a **companion animal only**, until the puppy reaches two years of age. If any defect is found, breeder must be notified within 48 hrs. of findings. Documentation from a licensed veterinarian must be provided to the breeder.

If this puppy is found to have a genetic defect of this kind, this must be verified by a licensed veterinarian. In the case of a hereditary hip deformity, a copy of written notification must come to the breeder from Orthopedic Foundation for Animals (OFA). In case of a genetic eye deformity, written notification must come to the Breeder from a Board Certified Veterinary Ophthalmologist. Breeder will then replace the puppy with one of the same sex and hair coat color from the first available litter (puppy to be determined by the breeder). (No money will be refunded.) The puppy/dog shall be returned to the seller in well-cared for condition, at the buyer's expense or be humanely euthanized by a licensed veterinarian at the buyer's expense. Which course of action to be taken will be determined by the breeder.

Buyer has 72 hours to have the puppy/dog examined by a licensed veterinarian for general health from date of delivery: ___/___/____. Failure to do so will result in any and all warranties being cancelled other than eyes and hips. Breeder accepts no liability for any communicable diseases after 48 hours from when the puppy/dog leaves the possession of the breeder. If puppy/dog does not pass a general health exam, buyer agrees to notify breeder within 48 hours of said licensed veterinary exam with a copy of the original signed licensed veterinary statement of health.

Minor problems such as diarrhea, coccidiosis, etc. are common problems in puppies especially under stress of new circumstances, and will not be covered by this warranty although every effort is made to prevent this.

Buyer acknowledges that veterinary care, whether preventative or in treatment of any condition is an agreement between two parties, the buyer and the veterinarian. Breeder is not responsible for buyer's veterinary expenses at any time or under any circumstance.

Breeder cannot guarantee adult size or confirmation of the puppy/dog.

Buyer hereby releases breeder and agrees to hold harmless for any liability, injuries or damages to persons or property caused by this puppy/dog.

Buyer shall assume full responsibility for the health, temperament, and appearance of the puppy/dog upon when the puppy/dog leaves the premise of the breeder.

Also, the buyer must follow **only** the recommended vaccine and deworming schedule during the puppy's/dog's first two years of life while in possession of buyer. The puppy/dog will also be placed on heartworm preventative and on NuVet Plus (canine supplement) for a minimum of two years. Failure to follow any of the requirements in this contract causes any health warranties stated in this contract to become null and void. Buyer must have proof from a veterinarian that the puppy/dog was up-to-date on all vaccinations, dewormings, and heartworm prevention. The rest of the contract will remain in effect. Puppy/dog will be up to date on all vaccinations and dewormings when it leaves premise of breeder.

In case of litigation the venue shall be Hood County, Texas.
